

## **PA System in Marston Room (Main Conference Room)**

### **Inputs**

There are four stage XLR/1/4" jack sockets for microphones.

There are also two locations for plugging in a laptop, which includes audio sockets (data leads supplied). The projector also has wireless capability.

We supply two **microphones** with leads and boom stands.

There are also two **radio microphones** (1 lapel and 1 hand held).

There is also a **DVD/CD player**, a **CD recorder** and a **hearing aid loop**.

The DVD will project directly to the ceiling mounted **power point projector**, which can also be used for laptop presentations. A cable is supplied for laptop and audio connection as well as a remote control for your laptop, if required.

The DVD player can also be used to project any of the **Freeview TV Channels**.

The CD recorder can be used to record talks, lectures etc. Blank discs are available to purchase at reception.

There is also an audio line output from the **amplifier**. This is four XLR sockets mounted on a rack inside the main housing.

The main speakers are wall mounted.

There is no fold back and we do not supply a laptop computer.

**Complimentary wi-fi** is available throughout the centre.

### **General Information**

Whilst the system will more than suffice for most groups, if you are planning a conference or event with a large music group you may wish to bring/hire your own system.
