

# PA System in Main Conference Room

## Inputs

There are 4 stage XLR / 1/4" jack sockets for microphones.

There are also 2 locations for plugging in a lap top, which includes audio sockets. (leads supplied)

We supply 2 **microphones** with leads and boom stands.

There are also 2 **radio microphones** (1 lapel and 1 hand held)

There is a DVD / video / CD / player and a hearing aid loop.

The DVD will project directly to the ceiling mounted **power point projector**, which can also be used for lap top presentations. A cable is supplied for lap top and audio connection as well as a remote control for your lap top if required.

The DVD player can also be used to project any of the 5 terrestrial TV programmes.

There is also an audio line output from the amplifier. This is 2 / ¼" jack sockets mounted on the left hand side of the main housing.

The main speakers are wall mounted.

There is no fold back and we do not supply a lap top computer.

## General Point

Whilst the system will more than suffice for most groups if you are planning a conference or event with a large music group you may wish to bring / hire your own system.
